

Below is a version of the data you saw above, this time in XML:

```
<?xml version="1.0"?>
<person>
  <first_name>Jonathan</first_name>
  <last_name>Freeman</last_name>
  <login_count>4</login_count>
  <is_writer>true</is_writer>
  <works_with_entities>
    <works_with>Spantree Technology Group</works_with>
    <works_with>InfoWorld</works_with>
  </works_with_entities>
  <pets>
    <pet>
      <name>Lilly</name>
      <type>Raccoon</type>
    </pet>
  </pets>
</person>
```
